2. The website currently only shows the event that we have just completed in Coral Springs. It needs to be updated ASAP by Ngoc/ Denise so that we can plan if we need two classes or not. In addition, please add limited information on the FFCA conference and Daytona events and if possible, have a place that people can express interest in attending.
3. Participation at these meetings continues to be light and we need to add additional people to the committee so that we can adequately prepare for the Daytona event. **July Update-** Steve Harbin and Al Warrell have now joined the committee!
4. Before we plan for Daytona, we need to identify if the college is available in May 2025, Ngoc please can you provide an update on this action item.
5. To start planning Daytona we need to identify what could be available as training opportunities. Regardless of the availability of Daytona we need to start planning and will find another location if required.
 - a. College Space/ Dates – Ngoc to provide an update
 - b. EVT Instructors - Michael, Kevin and I will contact the instructors that we all know and will check their interest and availability. We will most likely have to pay instructors; I will confirm with Ngoc what the amount would be for their services.
 - c. OEM's- we all deal with multiple vendors every day, please talk to your vendors and see if they would be interested in providing training or sponsorship of the event.

Next Meeting: August 30th at 11am.
