Communications Manager.

Statewide US&R Plan Interoperability

Critical Shortfalls in the Cache

Coordination with Federal Task Forces

ADSAR – John MacCormick

FWC and FL ANG willing to work with TF's – need to provide them with the number of personnel and weight, they would assign appropriate aircraft. This concept is now a potential mission and needs to be brought to ESF 4/9 for inclusion as US&R mission. Each TF must bear the cost of sending personnel to one day training. State ESF 4/9 has added a technical specialist position if major activation that understands US&R role.

Structures Specialist – Bill Bracken

TF 9 having trouble reaching out to StS – info will be provided. StS training has been cancelled but FSFC is willing to sponsor course. Total cost for class is \$20,000 for up to 40 attendees. Course is free in CA excluding travel.

Civilians would receive a certificate of completion, teaches engineers how to mitigate hazards and prepare a mitigation plan. After discussion, cost effective to send 6 StS to CA for training.

- SWRT Resource List
- Staging Sites Identified
- Alert, Activation and Demob Orders

IST – Application, Training, Curriculum

AAR issues from one Federal Task Force – Gustov and Ike

INTF1

EMAC Request A Form – each TF should prepare a draft

of this form to identify cost. Electronically available at <http://www.emacweb.org>  
Both federal TF's utilized, TF 6 got as far as Mobile before

demobilization for Gustov.

FEMA has an agreement with FL if Cat 3 or higher and declaration in advance of storm, 3 Type 1 US&R and 1
