SFM Training Report - Operation Integration VI (OI VI)

-This is a part of the Florida CERF-P's EXEVAL

-We will participate in the first two days of this event (March 22 and 23)

-OI VI will be similar to SoFLEx. The first day will LTRT and Haz Mat Response and then the second day will be US&R TF and Haz Mat Response

-We are working on an IMT and hope to have Comms incorporated in this event

-While there may not be evolutions specifically set up for these assets, please bring StSs and K9s teams as appropriate and we will incorporate everyone into the exercise

Work Group Reports

Water WG - build typing document of water craft and crews Larry Doerffel has lead

DHS Funding Update - 11 and 12 are closing out spending is only 13%. Need to look at budgets and decide what you are giving back if you cannot spend it. 2014 contract is in process. All TF's need to get their inventories together. Need to identify capital items for sustainment and cost to sustain. \$1000 limit needs clarification for sustainment. Will be using TF 3 for Type 1, TF4 for Type 2 and TF 7 for Type 3 as models for inventory. Radio caches not P 25 compliant. Will have to phase this in due to costs.

SUSAR - Todd Livingston is now on Board of Directors. Contracted with NEMA to utilize EMAP as evaluator as 3rd party evaluator for ARE/ORE process. Starting with 4 teams to be validated. K9 search and rescue typing documents submitted to SUSAR and is being reviewed by Mike Marks

Federal USAR report - President has signed budget, same budget for teams as last year.
