

## Three Reasons Why Florida's Fire Service was Given Priority to Be Vaccinated Against COVID-19

- 1** You are on the front lines and risk being exposed to people with COVID-19 each day on the job.
- 2** Protecting you also helps protect your family, coworkers and your patients, especially those who may be at higher risk for severe illness from COVID-19.
- 3** You matter. And you play an essential role in keeping your community healthy.
