

Hello, my name is Brent R. Stevens, and I currently serve as Fire Chief of the LaBelle Fire Department and have more than 18 years of dedicated service in the fire and emergency services profession. I hold multiple degrees and certificates from Edison College, Florida State University, and Western Governors University. Throughout my career, I have focused on communication, strengthening training, developing future leaders, and ensuring responsible management of department resources.

I am passionate about building strong relationships within the fire service and ensuring every member knows their voice matters. I believe effective leadership comes from listening, collaboration, and supporting one another. I am actively involved with the Fire Chief Peer Support Council, Coach's Corner Advocacy, and the Legislative Committee, where I work to strengthen leadership development, peer support, and advocacy for Florida's fire service.

My faith and community involvement as a member of Christ Central Church, serving on the worship team, and supporting No Longer Bound, have shaped my commitment to servant leadership. I will continue advocating for unity, mentorship, and ensuring every chief and department is represented.

I am committed to supporting the mission of the Florida Fire Chiefs Association by ensuring the organization remains fiscally responsible, transparent, and well-positioned to continue providing valuable training, advocacy, and leadership opportunities for its members.

If elected as Secretary-Treasurer, I will work to maintain strong financial stewardship while supporting initiatives that advance the fire service across Florida. I believe FFCA plays a critical role in representing fire service leaders and ensuring departments of all sizes have a voice.

I look forward to serving the membership, encouraging collaboration across the state, and helping strengthen the future of the Florida fire service.

I respectfully ask for your support and vote.
